El Departamento de Servicios de Salud del Estado de Texas anuncia que el comer alimentos crudos o semicocidos como carnes, aves, huevos, pescados y mariscos, pone en riesgo la salud de todo individuo, pero especialmente a ancianos o niños menores de 4 años, mujeres embarazadas u otros individuos con sistema inmunológico especialmente vulnerable. El completar tiempos de cocción adecuados reduce el riesgo de contraer enfermedades.

The Texas Department of State Health Services advises that eating raw or under cooked meat, poultry, eggs or seafood poses a health risk to everyone, but especially to the elderly, young children under age 4, pregnant women and other highly susceptible individuals with compromised immune systems. Thorough cooking of such animal foods reduces the risk of illness.
